Andrius Adomaitis

Junior Software Developer

Hi I'm Andrius, in 2022 I decided to change career path to TECH field. Finished CodeAcademy courses, then Sourcery Academy for developers. Continuously learning new tools, technologies, methodologies on Udemy, Coursera, Youtube. Currently looking for an intership/entry level/junior opportunity to start working as software engineer.

I'm a team player, ready to help, like to communicate, look for improvements. Seeking result at a given time, willing to learn something new. My english is B2. Have a bachelor degree in business administration and management.

My hobbies are traveling, cooking, books, spending quality time with the family. Main interest fields — economics, investments, military technologies.
